

The director and cinematographer are at each other's throats. Quick, get the project manager.

PMI presents “Applying the Fundamentals of Project Management,” the online course where you learn the basics of the profession by watching a fictitious project in the works: the filming of a documentary movie. Relationships, budgets, risk management, you name it — learn how they can all impact the overall success of your project.

After completing the course, you'll not only be familiar with the language of project management, you'll earn the 23 educational hours needed to apply for the CAPM (Certified Associate in Project Management)[®] certification.

- ▶ *Learn the fundamentals of project management from PMI, the world's largest project management association*
- ▶ *12 self-study modules you can access online for 12 months*
- ▶ *Assess your progress through a 160-question outline that's similar to the CAPM[®] certification exam*
- ▶ *Course workbook follows the story narrative and tests your comprehension. Includes 65 problems, answer key, and PMBOK[®] Guide[†] references*
